Product Data

MUL-EASE II

Secondary Emulsifier

MUL-EASE II is Unique Drilling Fluids secondary emulsifier. This product is used in conjunction with MUL-EASE I, primary emulsifier. It is most popular in the invert emulsion oil based drilling fluid systems such as our TOTAL-EASE.

APPLICATION

MUL-EASE II is used to support and maintain a tight emulsion by emulsifying any formation water that may invade the oil base system. The concentration recommended is usually 2-3 pounds/barrel which supplements the primary emulsifier used at 6-8 pounds/barrel.

Packaging

MUL-EASE II is packaged in 55 gallon/ 208 liter drums.
