Product Data

LIQ-POLYBRICITY

A POLY-BEAD LUBRICANT

DESCRIPTION

LIQ-POLYBRICITY is a liquid poly bead lubricant additive, which contains a highly active co-polymer bead suspended in an environmentally friendly carrier fluid. It is used as a drilling fluid lubricant and decreases drilling time. Its use is popular in horizontal fracking but applications are seen throughout the oilfield. When drillers encounter difficult rock formations **LIQ-POLYBRICITY** become their best friend.

APPLICATION

LIQ-POLYBRICITY is added directly to the drilling mud to increase lubrication and in turn help to drill through difficult formations.
